Summary

Dedicated Spring Boot and MERN Stack developer skilled in Python programming. Experienced in building scalable full-stack applications, REST APIs, and AI-integrated solutions. Passionate about efficient backend systems, modern UI/UX with React, and smooth deployment using Docker and cloud platforms.

Education

Rajiv Gandhi University of Knowledge and Technology, Basar

Aug. 2022 – May 2026

B.Tech in Computer Science and Engineering

CGPA: 8.7/10.0

Technical Skills

Languages: Java, Python, C, HTML, CSS, JavaScript, SQL

AI & ML Tools: LLMs, OpenAI, Ollama, Gemini, Hugging Face

Frameworks: Spring Boot, React.js, Next.js, Tailwind CSS, Shadcn, Microservices

Databases: MySQL, MongoDB, PostgreSQL, Appwrite

Tools: VS Code, GitHub, Docker, Jenkins, Postman, REST APIs

Practices: Agile, Kanban, Waterfall, OOP, Competitive Programming

Projects

Multi-Vendor E-Commerce Platform | *Spring Boot, React, MySQL, Docker*

[Repo](#)

- Built a scalable e-commerce platform supporting multiple vendors, each with their own product catalog, order management, and earnings dashboard.
- Implemented secure JWT-based authentication, AI-powered customer support chatbot, and integrated Razorpay for seamless payment processing.
- Containerized the application using Docker and deployed using Nginx reverse proxy to ensure smooth performance across services.

AI Podcast Clipper | *Python, Next.js, FastAPI, WhisperX*

[Repo](#)

- Developed a system that transcribes podcasts using WhisperX and extracts clips using LLMs and timestamp mapping.
- Generated vertical short-form videos with speaker subtitles and summarization.
- Integrated Stripe-based token billing system with usage dashboard.

Code Bash - Real-Time Collaborative Code Editor | *React, Express, MongoDB, WebRTC*

[Repo](#)

- Built real-time collaborative editor with WebSockets, built-in chat, syntax highlighting, and access control.
- Enabled file sharing, session links, and contribution graph via D3.js.
- Secured backend with env variables: REACT_APP_BACKEND_URL, MONGO_URL, etc.

Achievements

- Solved 400+ LeetCode problems (Top 27%, max rating: 1600).
- 3-star CodeChef (max rating: 1640).
- Consistent participant in online DSA contests.

Certificates & Involvement

- Spring Boot Certification – Udemy
- Next.js Certification – Udemy
- Python Basics Certification – Great Learning
- Member – Coding Club, RGUKT Basar
